

An aerial photograph of a coastal town, likely Hampton, Virginia, showing a dense residential area with many houses and buildings. The town is situated along a body of water, with a sandy beach and several sailboats visible in the foreground. The entire image is overlaid with a semi-transparent blue filter.

Hampton

Our Place:
Planning for People

Like all of Melbourne, Hampton is growing and changing.

As well as supporting an ageing population, Hampton is attracting more young people and young families. Our planning for the future needs to consider the increased demand for community facilities and services and evolving needs of different residents.

What services will be required to meet the needs of our changing population? How will those services be delivered? What facilities and spaces will best support the health and wellbeing of current and future residents?

Tell us what you value most about Hampton, and what community facilities and services are most important to you for your future Hampton.
