

NEW BAY TRAIL PATH FOR CYCLISTS

Brighton Foreshore

Bay Trail, Brighton Foreshore

The key outcome of this project will be the creation of separated pedestrian and cycling paths along the Bay Trail between Bay Street and Sandown Street. The existing shared trail will remain as the pedestrian path. A new concrete path will be constructed to extend the separated bicycle trail that already exists north of Bay Street.

Bay Trail / Bay Street Intersection

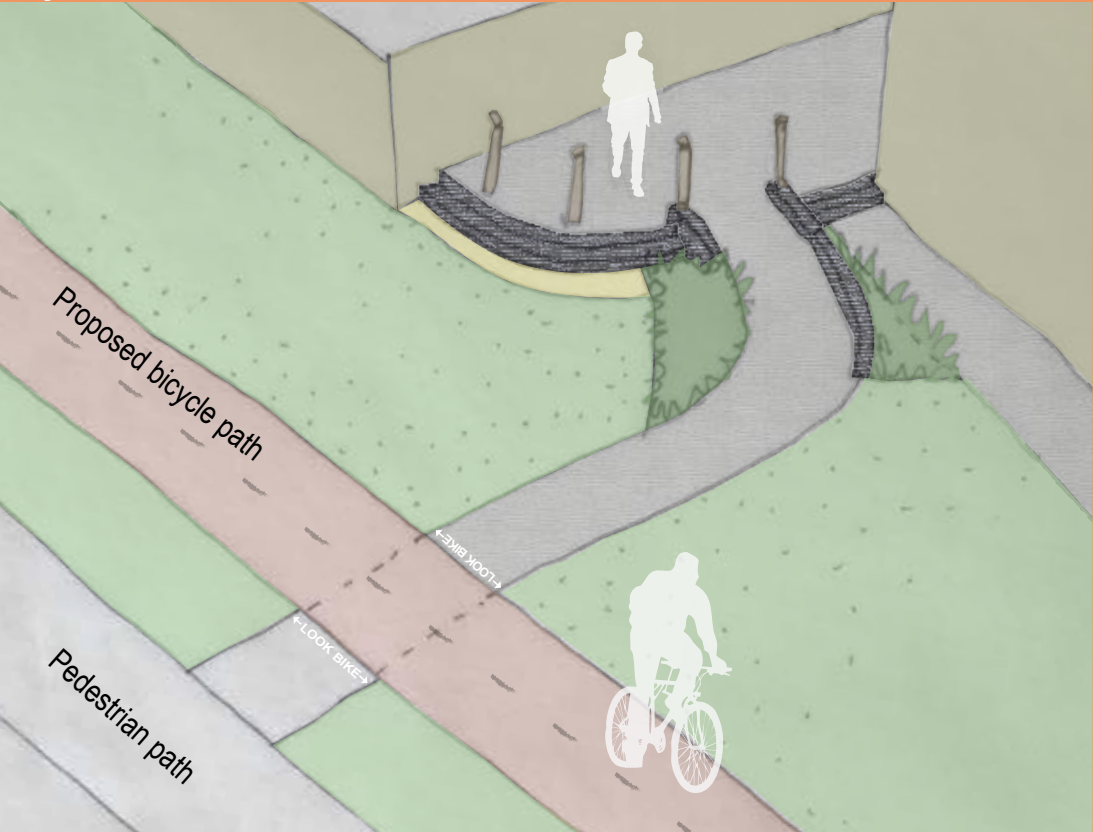

The proposed modifications to the Bay Street intersection are intended to:

- Create a single trail crossing point clearly defined by line marking and with open view lines in both directions
- Create spaces to the side of the trail for pedestrians and cyclists to stop without obstructing other trail users.
- Additional space for pedestrian and cycle stopping and circulation is made available by a minor reduction in road area, moving the bollards approximately 2 metres east of their existing locations.

*See over leaf for continuation and key to letters above (which identify residential gates)

Bay Trail / Seacombe Grove Intersection

The modifications to the end of the Seacombe Grove pedestrian access walkway will provide a paved access path connecting the walkway to the Bay Trail and the dog beach. This will improve access for everyone, particularly people with mobility issues.

Bay Trail / Sandown Road Intersection

The proposed modifications to the Sandown Street intersection are intended to:

- Create a single trail crossing point clearly defined by line marking and with open view lines in both directions
- Create spaces to the side of the trail for pedestrians and cyclists to stop without obstructing other trail users
- Create a transition between the separated and shared pedestrian/cycle trail (the trail will remain shared to the south of Sandown Street)

Distance between residential rear gates and proposed cycling path		
Gate	Address	Distance from gate/garage doors to edge of path
A	5 St Ninians Road	2.8 metres
B	3 St Ninians Road	4.5 metres
C	2 St Ninians Court	3.9 metres
D	3 St Ninians Court	3.1 metres
E	12 Moule Avenue	4.4 metres
F	14 Moule Avenue	5.7 metres
G	16 Moule Avenue	5.2 metres
H	16 Moule Avenue	5.3 metres
I	41 Seacombe Grove	5.0 metres
J	39 Seacombe Grove	4.3 metres
K	37 Seacombe Grove	4.8 metres
L	29 Seacombe Grove	Min. 5.8 metres
M	23 Seacombe Grove	5.4 metres
N	19 Seacombe Grove	5.4 metres
O	10 Sandown Street	3.0 metres
P	10 Sandown Street	3.3 metres
Q	10 Sandown Street	3.8 metres
