## Mayor's Message

The proposed 2024/25 Budget establishes Council's commitment to maintaining and improving services and infrastructure while delivering important capital projects that are valued by our community.

In line with the 2021 – 2025 Council Plan, the \$181 million budget is focused in four key areas over the next 12 months:

- Our Planet – leading better, smarter and sustainable futures
- Our People – nurturing all people and thriving healthy communities
- Our Place – fostering Bayside's liveability, open spaces and exceptional places
- Our Promise – promising open and accountable civic leadership.

A highlight of this budget is the expansion of our Home Care Packages to meet the increasing needs of our ageing community. This reaffirms our commitment to aged care and to ensure our older population remain independent and safe in their homes.

The budget also features sustained investment in our roads, footpaths and infrastructure maintenance to ensure Bayside has a strong foundation, including investment in the Third Street Black Rock drainage upgrade.

Our \$55.7 million capital works program will continue to deliver important facilities for our active and engaged community. This includes the renewals of Boss James Reserve Pavilion, Dendy Park Athletic Pavilion, and an upgrade of the Beaumaris Arts Centre.

Recognising the health and wellbeing needs of our ageing population, the Warm Water Pool project will receive the significant investment of \$28.9 million over the four-year capital program.

Our world-class foreshore, parks and open spaces will receive a \$15.4 million investment in 2024/25 including Hampton Foreshore Precinct, Red Bluff to Half Moon Bay Masterplan Stage 3, and Wangara Road Park masterplan implementation.

The exciting project of Yalukit Willam Nature Reserve will continue with \$5.8 million committed to Stage 3 of the wetlands project as well as \$7.7 million for design and construction of the Elsternwick Park gateway building.

The budget also includes funding for further implementation of our Climate Emergency Action Plan and Biodiversity Action Plan, both of which will assist Bayside in reaching our net zero target by 2050.

### Mayor's Message (cont'd)

The budget will be largely funded by rates, with a 2.75% increase which is in line with the Victorian Government's rate cap.

Bayside receives more than 68% of our revenue from rates. The decision to increase rates is never taken lightly however this rate increase will enable us to continue to deliver important services and programs whilst investing in necessary community infrastructure in an environment of cost escalations well above inflation and a tight labour market.

The waste management levy will increase by 0.1%, reflecting Council's policy of direct cost recovery. The small increase in 2024/25 reflects Council's successful implementation of waste diversion programs as well as additional income from the new deposit recycling scheme.

This considered budget was developed against a backdrop of tightening economic conditions that are impacting Council as well as our community. Despite this, our long term prudent financial management means we are well positioned to continue to provide the services and infrastructure our community needs now and into the future.

I commend the proposed 2024/25 Bayside City Council Budget to our community.

Councillor Fiona Stitfold  
Mayor

## Executive Summary

The budget is aligned to the vision outlined in the Council Plan 2021-2025. It seeks to maintain and improve services and infrastructure as well as deliver projects and services that are valued by our community, and do this within the rate increase mandated by the State Government.

This Budget projects a surplus of \$23m for 2024/25, however, it should be noted that the underlying result is a surplus of \$13.9 million after adjusting for capital grants and contributions and other one off items.

### Key things we are funding

- 1) Ongoing delivery of services to the Bayside City community funded by a budget of \$181 million. These services are summarised in Section 2.
- 2) Investment in the capital budget of \$55.7 million. This includes:  
\$20.8 million on buildings, roads \$3.5 million, footpaths and bicycle ways \$4.5 million, drainage \$6.3 million, parks, open space and streetscapes \$10.9 million, and foreshores and conservation \$4.5 million.

The Statement of Capital Works can be found in Section 3 and further details on the capital works budget can be found in Section 4.5.

### Goal 1: Our Planet

- 3) Climate Emergency Action Plan further implementation \$0.44 million
- 4) Biodiversity Action Plan further implementation \$0.31 million
- 5) Progression of the Highbett Grassy Woodland Masterplan \$0.38 million
- 6) Yalukit Willam Nature Reserve: Wetlands \$5.8 million

### Goal 2: Our People

- 7) Municipal Health and Wellbeing Plan \$0.4 million
- 8) Innovate Reconciliation Action Plan \$0.13 million
- 9) Expansion of Aged Care Services \$4.1 million

### Goal 3: Our Place

- 10) Completion of the Beaumaris Arts Studio \$3.4 million
- 11) Development of the Wangara Road Masterplan \$2.4 million
- 12) Commence the Billilla Mansion and precinct restoration \$1.0 million
- 13) Construct the Third Street Black Rock drainage upgrade \$1.4 million
- 14) Construct the Boss James Pavilion upgrade \$2.8 million

### Goal 4: Our Promise

- 15) Review of the 10 year financial plan
- 16) Implementation of the 2024/25 Annual Action Plan
- 17) Conduct the LG 2024 elections
- 18) Complete the Councillor mandatory induction program

## The Rate Rise

The average rate will rise by 2.75% in line with the order by the Minister for Local Government on 22 December 2023. The key drivers for the rate increase are to:

- a. To fund ongoing service delivery – business as usual (balanced with greater service demands from residents)
- b. To fund renewal of infrastructure and community assets
- c. To cope with growth in the population of Bayside residents
- d. To cope with cost shifting from the State Government

Valuations will be as per the General Revaluation dated 1 January 2024 (as amended by supplementary valuations).

The waste service charge incorporating kerbside collection and recycling will increase by 0.1%.

Refer Section 4.1.1 for further Rates and Charges details

## Budget influences

This section sets out the key budget influences arising from the internal and external environment within which the Council operates.

## Snapshot of Bayside City Council

Bayside City Council is located south of Melbourne along Port Phillip Bay, with the northern boundary eight kilometres from Melbourne's central business district. The municipality, covering an area of 37 square kilometres, comprises the former cities of Brighton and Sandringham and parts of the former cities of Mordialloc and Moorabbin. Bayside City Council was created on 14 December 1994.

Bayside's natural environment, from the 17 kilometre stretch of sparkling coastline to the urban forest of our streets is an important asset. Preservation and enhancement works are completed each year to help maintain our natural environment and protect it from the impact of development, increased use and climate change.

## Population

Bayside City Council's resident population forecast for 2024 is 107,734 persons and is expected to grow 16.84% to 125,879 by 2041. The estimated resident population was 102,177 persons as at 30 June 2022. Over the 2021-2022 period, the Bayside population decreased by 151 persons (0.15%). In the 10 years from 2011 to 2021, the population increased by 10.3% from 91,815 persons in 2011. (Source: Australian Bureau of Statistics-Estimated Resident Population, i.d. Population Forecast).

## Ageing population

The population in Bayside continues to age overall. Bayside had similar proportion of children (under 18) and a higher proportion of people aged 60 or older than Greater Melbourne including almost double the proportion of 'frail elderly people' (those 85 years and older). However, the number of people over 85 reduced overall in Bayside. (Source: Australian Bureau of Statistics, Census of Population and Housing).

**Births**

Over the past decade, fertility rates and number of births have been steadily decreasing. In 2022-23 there were 729 birth notifications in Bayside with 699 births estimated for the 2023-24 year.

The dominant household type in Bayside is family households, mainly couples with children (35.2%) followed by couples without children (26.0%). The high cost of housing in Bayside makes it unaffordable for many young adults and families when they are first establishing themselves but it is a highly desirable place to live for established families, and for people to remain as they age.

**Cultural diversity**

In 2021, 27.1% of Bayside residents were born overseas, compared with 35.7% in Greater Melbourne. The main overseas countries of birth are the United Kingdom, China and New Zealand. Eight out of ten Bayside residents speak English at home. The main non-English languages spoken at home are Greek, Mandarin and Russian. (Source: Australian Bureau of Statistics, Census of Population and Housing).

**Housing**

The number of homes in Bayside is increasing. There are 44,484 dwellings now, and this is forecast to increase to 52,239 by year 2041. The number of one-person (25.3%) and two-person (32.6%) households is forecast to increase substantially over the next decade, with a smaller increase in family households. (Source: Population and household forecasts, 2021 to 2041, prepared by .id (informed decisions)).

The proportion of separate houses has fallen with the growth of flats, units or apartments and townhouses. Residential property prices have increased significantly over the past 10 years. The median house price in Bayside was \$2,110,000 in June 2023. (Source: .id (information decisions)).

**Education and occupation**

People in Bayside are generally well educated. The proportion of residents who have completed Year 12 schooling (or equivalent) is higher compared to Greater Melbourne. In 2021, 44.0% of Bayside residents had a bachelor degree or higher qualification, compared to the Greater Melbourne average of 32.8%. (Source: Australian Bureau of Statistics, Census of Population and Housing).

More than half of the Bayside residents who are employed are professionals (33.6%) or managers (24.0%). This is a much higher proportion than across Greater Melbourne. These occupations, as well as Community and Personal Service workers are the fastest growing occupations in Bayside (Source: Australian Bureau of Statistics, Census of Population and Housing).

### Budget implications

As a result of the City's demographic profile there are a number of budget implications in the short and long term as follows:

- An ageing population, with particularly high numbers of people aged 85 and over places an increasing emphasis on Council's Home and Community Care services, support services and infrastructure for seniors.
- As a substantially developed middle-ring Melbourne municipality, the City experiences a relatively small increase in property numbers, mainly arising from dual occupancy development in suburban areas and higher density developments within activity centres. Addressing infrastructure capacity increases for infill developments can be more complex than in growth areas, presenting Council with ongoing budget implications. Council continues to investigate means in which to offset the costs of resulting infrastructure improvements from rate revenue. The rates received from new dwellings do not offset the significant infrastructure costs.
- The small area of Bayside reduces transport costs when compared to rural shires. Services can be centralised as most citizens are able to reach Council facilities without extensive travel, while Council is active in its advocacy for improved transport options for the community, particularly in the south of the municipality.
- The relatively small extent of commercial zoned areas and conversely, the extensive level of residential zoned land means Council's reliance on residential rates will remain high. This presents further challenges for Council with a greater residential population generating a higher demand for Council services.

### External influences

There are a number of external influences that will have a significant impact on the preparation of the 2024/25 budget. These items include:

- The Victorian State Government has introduced a cap on rate increases from 2016/17. The cap for 2024/25 has been set at 2.75%.
- Over the twelve months to the December 2023 quarter, the Consumer Price Index (CPI) rose 4.1% (ABS release 31 January 2024) and is forecast to be 3.3% in 2024/25.
- \$1 million increase in interest income compared to the 2023/24 budget reflecting increasing investment yields aligned to the aggressive increase in the cash rates by the Reserve Bank.
- Cost Shifting occurs where Local Government provides a service to the community on behalf of the State and Federal Government. Over time the funds received by local governments do not increase in line with real cost increases. Examples of services that are subject to Cost Shifting include school crossing supervision and Library services. In all these services the level of payment received by Council from the State Government does not reflect the real cost of providing the service to the community.
- The Fire Services Property Levy will continue to be collected by Council on behalf of the State Government with the introduction of the *Fire Services Property Levy Act 2012*.

### Internal influences

As well as external influences, there are also a number of internal influences which are expected to have a significant impact on the preparation of the 2024/25 Budget. These matters have arisen from events occurring in the 2023/24 year resulting in variances between the forecast actual and budgeted results for that year and matters expected to arise in the 2024/25 year. These matters and their financial impact are set out below:

- Salaries governed by Council's Enterprise Bargaining Agreement (EBA) to increase by 2.75% on 1 July 2024.
- Growth in Council's aged care services from the delivery of entry level services to the delivery of Home Care Packages. For the 2024/25 Budget, grant and fee income from Home Care Packages is expected to grow by \$4.1 million and Council will deliver \$20 million of funded CHSP and Aged Care Packages to clients during 2024/25.
- \$0.7 million increase to accommodate the CPI impact on contracts in excess of the rate cap (Open Space and Facilities Maintenance).
- \$1.05M increase in variations for open space and maintenance contracts which includes \$0.3 million for additional street sweeping services to address community feedback and alleviate flooding issues caused by leaves during high rain events, \$0.1 million Increase to accommodate maintenance of newly activated open space at Wangara Road Sandringham, 7 Wells Street Pocket Park Brighton, Holloway Road Oval Sandringham, Highett Plains Grassy Woodland Conservation Reserve, \$0.2 million to accommodate the current level of emergency callouts for water bursts, branches causing safety issues, road subsidence, and \$0.2 million required to address the impacts of climate change, ageing infrastructure, and development impacts on the drainage network.
- \$0.5 million increase in IT software license and support costs which responds to both internal and external customer needs. Traditionally these IT costs would have been previously funded through the capital program but now reflect a transition to software as a service with these costs now funded through the operating budget.
- \$0.33 million increase in insurance premiums which represents a 20% increase reflecting current market conditions.

### **Cost Shifting**

Cost shifting occurs when Commonwealth and State programs transfer responsibilities to local government with insufficient funding or grants which don't keep pace with delivery costs.

### **Cost Shifting for Specific Services**

1. Library Services - \$0.05 million from 2013/14 to 2023/24

### **Statutory fee that prohibits full cost recovery**

2. Planning fees (set by the State and have been frozen for most of the past 15 years).
3. Revenue foregone for the past 11 years is estimated to be \$15.1M if Council were allowed to fully recover the cost of providing planning services.

### **Levies**

4. State Government landfill levy has increased from \$9 per tonne in 2008/09 to an estimated rate of \$134.44 from 1 July 2024.
5. Total landfill levy for Bayside City Council is estimated to be \$17.3 million for the 16 years from 2008/09.
6. Animal registration levy estimated - \$0.75 million from 2012/13 to 2022/23.

### **Budget principles**

In response to these influences, guidelines were prepared and distributed to all Council officers with budget responsibilities. The guidelines set out the key budget principles upon which the officers were to prepare their budgets. The principles included:

- Existing fees and charges to be increased by 2.75% in accordance with the rate cap for 2024/25 subject to statutory restrictions.
- Grants to be based on confirmed funding levels.
- New revenue sources to be identified where possible.
- Service levels to be maintained at 2023/24 levels with the aim to use less resources with an emphasis on innovation and efficiency.
- Salaries and wages to be based on current staff establishment.
- Contract labour to be minimised.
- Construction and material costs to increase in line with the Engineering Construction Index (refer 'Rawlinsons Australian Construction Handbook').
- New initiatives worth \$0.8 million are to be delivered in 2024/25.
- Operating revenues and expenses arising from completed 2023/24 capital projects to be included.

### **Long term strategies**

The budget includes consideration of a number of long term strategies and contextual information to assist Council to prepare the Budget in a proper financial management context. These can be found in the 2024/25 10 year Financial Plan.

## Summary of financial position

Council has a number of key financial strategies in place designed to maintain its long term financial sustainability. This has Council well placed to cope with rate capping in the short term. By implementing efficiency saving in the operating budget without impacting service levels, historically Council has been able to increase its operating surpluses which in turn have then been used to aggressively pay off debt and increase the funds available in the capital budget. This was a deliberate strategy to enable Council to implement its vision to build a better Bayside and address past underinvestment in Bayside's assets.

In the medium to longer term however, Council is facing significant financial challenges driven by the impact of rate capping in an environment of escalating operational and capital expenditure caused by external economic factors. The recent impact of cost escalations driven by high inflation has caused Council to cancel and defer major capital projects and reduce its New Initiative program in order to fund existing services at current level. Council's Long Term Financial Plan has a reducing underlying surplus as well as a reducing unrestricted cash balance which will make it difficult for Council to fund large renewal projects into the future including the refurbishment of the Sandringham Family Leisure centre which has a remaining useful life of less than 10 years.

Key budget information is provided below about the rate increase, operating results, service delivery cost increases in line with the rate cap, cash position and capital works.

### Total rates and charges

It is proposed that the average general rate and municipal charge increase by 2.75% for the 2024/25 year in accordance with the rate cap set by the Minister for Local Government, raising \$99.538 million, including \$0.5 million generated from supplementary rates.

The budget includes waste service charge income of \$17.441 million which is an increase in revenue of \$0.2 million compared to 2023/24 resulting in a waste charge levy increase of 0.1% for 2024/25.

The 0.1% increase is due to escalating waste costs offset by a new revenue stream for 2024/25 being the recycling container deposit scheme and the effectiveness of Councils FOGO strategy in diverting waste from landfill. The 2023/24 waste charge also included a one-off charge for the changeover of all kerbside general waste bins to comply with the State Governments bin colour standardisation.

In accordance with Bayside's Revenue and Rating Plan, Council will offer an incentive for early payment of rates, resulting in approximately \$0.1 million of discounts to be provided in 2024/25.

### Comprehensive Operating Result

The expected Comprehensive Operating Result for the 2024/25 year is a surplus of \$23.04 million, which is a decrease of \$16.4 million from 2023/24. 2023/24 includes a one off contribution of land valued at \$7.0 million from the developer of the former CSIRO site in Highett in accordance with the development agreement with the Commonwealth the former owner of the site.

The 2023/24 forecast also includes an additional \$6 million for Open Space contributions from developers which are placed in reserves and used to fund improvements to or new Open Space. The 2023/24 forecast included a number of large one off developments and the budget for 2024/25 reflects the expected income for the year based on typical activity.

Operating surpluses continue to decrease from 2024/25 due to increasing depreciation expenditure as major capital projects are finished and commissioned for use as well as reduced interest income as interest rates decline and Council continues to draw down on its cash reserves to fund the capital program.

### Services

The net cost of services will increase by 4.2% compared to the 2023/24 budget and 4.7% compared to the 2023/24 forecast. For the 2024/25 year, service levels have been maintained with the exception of Council's Home Care Package business and some of Council's core maintenance services designed to improve community outcomes. The 2023/24 forecast includes salary savings due to vacant positions as well as significant interest income which will reduce significantly in 2024/25 as interest rates decrease and cash reserves are used to fund the capital program. The 2024/25 budget also includes an allowance for significant Council election costs as well as the impact of inflationary pressure on our open space and maintenance contracts.

### Cash and investments

Cash and investments are expected to decrease by \$4.6 million during the year to \$118.1 million as at 30 June 2025. Cash reserves are expected to decrease by \$40.0 million over the next four years as the capital program is delivered. A strong cash position will be maintained over the term of the Council's Financial Plan.

### Capital works

The capital works program for the 2024/25 year is expected to be \$55.7 million of which, \$5.5 million will be funded by external grants and contributions, with the balance funded by Council.

The capital expenditure program has been set and prioritised based on a rigorous process of consultation that has enabled Council to assess needs and develop sound business cases for each project. This year's program includes \$20.8 million to be spent on buildings including the Boss James Reserve Pavilion renewal \$2.8 million, Dendy Park Athletic Pavilion renewal \$2.7 million and Beaumaris Arts Centre \$3.4 million. Council's investment in the Warm Water Pool project remains with significant investment of \$28.9 million over the four year capital program. \$15.4 million will be invested in Bayside's foreshore, parks, and open space including Hampton Foreshore Precinct \$1.2 million, Red Bluff to Half Moon Bay Masterplan Stage 3 \$1.1 million and Wangara Road Park masterplan implementation \$2.4 million. Council continues its investment in the Yalukit Willam Nature Reserve of \$19 million over the four year capital program with \$5.8 million for the wetlands project Stage 3, \$5.5 million on park infrastructure, and \$7.7 million for design and construction of the Elsternwick Park gateway building.

Refer also Section 3.5 for the Statement of Capital Works and Section 4.5 for details of the capital budget.

### Financial position

Council maintains a strong working capital position due to its strong cash reserves in the short term. Net current assets (working capital) will decrease by \$7 million to \$74.9 million as at 30 June 2025. This is mainly due to the timing of the reduction in cash used to fund an increase in the capital program in 2024/25 from expected carry forwards from 2023/24 of \$22.2 million. The working capital ratio reduces over the next 2 years before stabilising.

## Financial sustainability

The underlying result is the net surplus adjusted for non-recurrent capital grants, non-monetary asset contributions, and capital contributions from other sources. It is a measure of financial sustainability and Council's ability to achieve its service delivery objectives as it is not impacted by capital income items which can often mask the operating result.

The underlying result, which is a measure of financial sustainability, shows a reducing surplus to around \$7.7 million from 2027/28, a reduction of 55% and reflects the impact of rate capping, a reduction in interest income as cash reserves are used to fund the capital program, an increase in depreciation reflecting Council's ambitious capital program as well as an allowance for additional services which will commence in the coming years including the new Highett Library and Community Hub, maintenance of the Yalukit Willam reserve, and the activation of Billilla Mansion for community use.

### Strategic objectives

The Annual Budget includes a range of services and initiatives to be funded that will contribute to achieving the strategic objectives specified in the Council Plan.

The above graph shows the level of funding allocated in the budget to achieve the strategic objectives as set out in the Council Plan for the 2024/25 year. The services that contribute to these objectives are set out in Section 2.

### Council expenditure allocations

The chart below provides an indication of how Council allocates its expenditure across the main services that it delivers. It shows how much is allocated to each service area for every \$100 that Council spends. Council overheads, governance costs and administrative costs are allocated to our external facing services using an internal overhead allocation model.

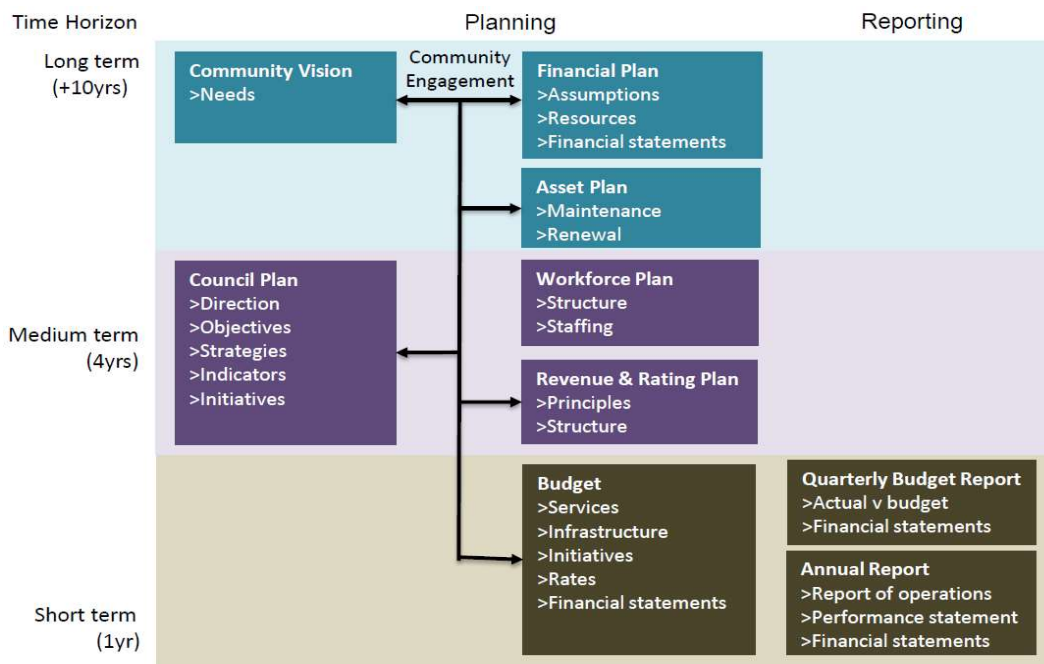

## 1. Link to the Council Plan

This section describes how the Budget links to the achievement of the Community Vision and Council Plan within an overall integrated planning and reporting framework. This framework guides the Council in identifying community needs and aspirations over the long-term (Community Vision and Financial Plan), medium-term (Council Plan, Workforce Plan, and Revenue and Rating Plan) and short-term (Budget) and then holding itself accountable (Annual Report).

### 1.1 Planning and accountability framework

The Budget is a rolling four-year plan that outlines the financial and non-financial resources that Council requires to achieve the strategic objectives described in the Council Plan. The diagram below depicts the integrated planning and reporting framework that applies to local government in Victoria. At each stage of the integrated planning and reporting framework there are opportunities for community and stakeholder input. This is important to ensure transparency and accountability to both residents and ratepayers.

Source: Department of Jobs, Precincts and Regions

The timing of each component of the integrated planning and reporting framework is critical to the successful achievement of the planned outcomes.

### 1.1.2 Key planning considerations

#### Service Planning and Service Improvement

##### Service level planning

Each year the organisation undertakes service-level planning with a 4-year horizon to ensure our services effectively prioritise effort and resources to meet the needs of the community. Our robust approach to service planning ensures we meet our *Local Government Act 2020* obligations to 'deliver services to meet a set of service performance objectives based on fairness, accessibility, quality, cost and continuous improvement'. Service planning aligns to our Integrated Strategic Planning and Reporting Framework to ensure we deliver on the Community Vision, Council Plan, and other strategic and legislative commitments.

##### Service improvement

Council is committed to continuously improving the way that we work to demonstrate public value to our community. We use different improvement initiatives to address and prioritise improvement opportunities, such as through service planning, process mapping and service improvement projects.

## 1.2 Our purpose

### Our vision

Our vision is to Partner with our community to protect and care for the community of life in Bayside making an inclusive, active, healthy, connected and creative experience for all. This vision forms Council's response to our community's expectations and our shared priorities for the next four years. It also represents our strongly held belief that we represent a highly engaged and forward-thinking community; a community that expects us to lead and influence change on the big issues that affect all of us in Bayside and the broader global system.

### Our values

Bayside City Council has a clear strength in the bond and affinity between its Councillors, the community and staff. Staff support the community leadership and governance role of Councillors, and work together to achieve the commitments of the Council Plan. Having all Bayside City Council staff practise the following organisational values enhances the quality of this partnership:

Values	Behaviours
<b>Respect each other</b>	<ul style="list-style-type: none"> <li>• I value others and their contributions.</li> <li>• I ask and listen to understand.</li> <li>• I treat others with fairness, dignity and care.</li> </ul>
<b>Own it</b>	<ul style="list-style-type: none"> <li>• I take responsibility for my actions.</li> <li>• I see it through.</li> <li>• I make it happen.</li> </ul>
<b>Work together</b>	<ul style="list-style-type: none"> <li>• We collaborate within and across teams.</li> <li>• We set each other up for success.</li> <li>• We share information generously.</li> <li>• We care about the flow on impact of our work.</li> </ul>
<b>Find better ways</b>	<ul style="list-style-type: none"> <li>• We are curious about our community's changing needs.</li> <li>• We encourage breakthrough ideas and new approaches.</li> <li>• We make courageous decisions.</li> <li>• We are open to learning.</li> </ul>

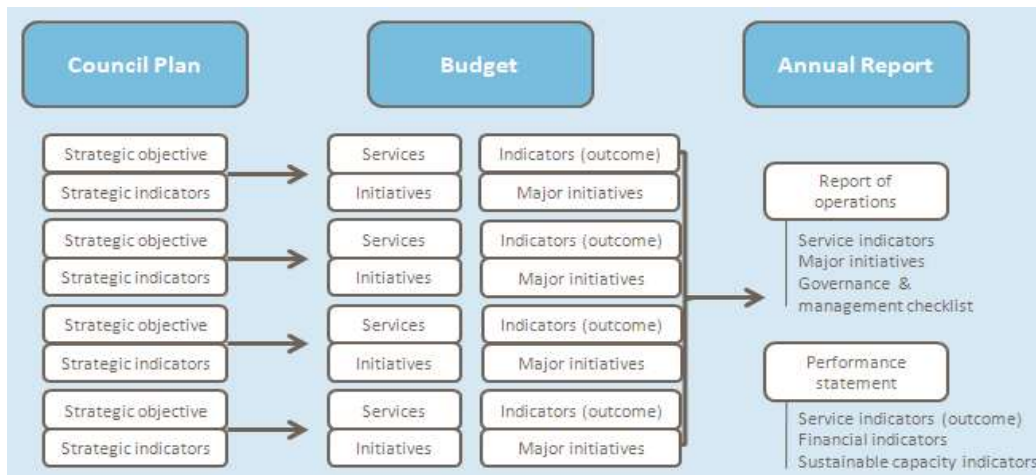

### 1.3 Council Goals

Council delivers services and initiatives under 47 major service categories. Each contributes to the achievement of one of the four Goals as set out in the Council Plan for the years 2021-2025. The following table lists the four Goals as described in the Council Plan.

Goals	Description
<b>Goal 1: Our Planet</b>	As custodians, we will lead, act and advocate on the critical issues of environmental sustainability and climate emergency, and on our shared responsibility to care for and protect Earth's vitality, diversity, beauty and the community of life.
<b>Goal 2: Our People</b>	We will plan and advocate for a Bayside where our diverse communities and people can thrive, live healthy and active lives, fostering inclusion and participation through holistic, innovative approaches to economic and social wellbeing.
<b>Goal 3: Our Place</b>	Our open space and foreshore, our facilities and the built environment are highly valued, shared and enhanced to ensure their sustainability, use, liveability, character, and amenity for current and future generations.
<b>Goal 4: Our Promise</b>	We will engage with and represent for all in our community, and provide ethical, open and accountable stewardship of the Bayside municipality and deliver sustainable services that meet the vision and needs of the current and future generations of Bayside.

## 2. Services and service performance indicators

This section provides a description of the services and initiatives to be funded in the Budget for the 2024/25 year and how these will contribute to achieving the strategic objectives outlined in the Council Plan. It also describes several initiatives and service performance outcome indicators for key areas of Council's operations. Council is required by legislation to identify major initiatives, initiatives and service performance outcome indicators in the Budget and report against them in their Annual Report to support transparency and accountability. The relationship between these accountability requirements in the Council Plan, the Budget and the Annual Report is shown below.

Source: Department of Jobs, Precincts and Regions

The Major initiatives and initiatives are made up of key projects delivered as part of the capital program, new initiatives program or operating budget.

### Goal 1: Our Planet

As custodians, we will lead, act and advocate on the critical issues of environmental sustainability and climate emergency, and on our shared responsibility to care for and protect Earth's vitality, diversity, beauty and the community of life.

#### Strategic objectives

- 1.1. Lead and influence change to address the Climate Emergency and strive to reduce its impact on the health of our community, environment and the planet.
- 1.2. Protect and enhance our natural and coastal environments, biodiversity and unique ecosystems.
- 1.3. Improve environmental sustainability through a circular economy approach to waste management, recycling and energy use.

## 4. Notes to the financial statements

This section presents detailed information on material components of the financial statements. Council needs to assess which components are material, considering the dollar amounts and nature of these components.

### 4.1 Comprehensive Income Statement

#### 4.1.1 Rates and charges

Rates and charges are required by the Act and the Regulations to be disclosed in Council's budget.

As per the *Local Government Act 2020*, Council is required to have a Revenue and Rating Plan which is a four year plan for how Council will generate income to deliver the Council Plan, program and services and capital works commitments over a four-year period.

In developing the Budget, rates and charges were identified as an important source of revenue. Planning for future rate increases has therefore been an important component of the financial planning process. The Fair Go Rates System (FGRS) sets out the maximum amount councils may increase rates in a year. For 2024/25 the FGRS cap has been set at 2.75%. The cap applies to both general rates and municipal charges and is calculated on the basis of council's average rates and charges.

The level of required rates and charges has been considered in this context, with reference to Council's other sources of income and the planned expenditure on services and works to be undertaken for the community.

To achieve these objectives while maintaining service levels and a strong capital expenditure program, the average general rate and the municipal charge will increase by 2.75% in line with the rate cap.

For 2024/25 Service rates & charges will increase by 0.1% in accordance with Council's policy of direct cost recovery.

#### Rate calculation for average ratepayer

##### 4.1.1(m) Any significant changes that may affect the estimated amounts to be raised by rates and charges

There are no known significant changes which may affect the estimated amounts to be raised by rates and charges. However, the total amount to be raised by rates and charges may be affected by:

- The making of supplementary valuations (2024/25: estimated \$500,000, 2023/24: \$462,327)
- The variation of returned levels of value (e.g. valuation appeals);
- Changes of use of land such that rateable land becomes non-rateable land and vice versa; and
- Changes of use of land such that residential land becomes business land and vice versa.

##### 4.1.1(n) Differential rates

Bayside City Council has elected not to make a declaration of differential rates.

#### 4.1.2 Statutory fees and fines

	Forecast Actual 2023/24 \$'000	Budget 2024/25 \$'000	Change \$'000	%
Infringements and costs	6,558	6,583	25	0.4%
Town planning fees	1,479	1,829	350	23.7%
Land information certificates	155	160	5	3.2%
Building Permits	775	795	20	2.6%
Other	101	104	3	3.0%
<b>Total statutory fees and fines</b>	<b>9,068</b>	<b>9,471</b>	<b>403</b>	<b>4.4%</b>

Statutory fees mainly relate to fees and fines levied in accordance with legislation and include animal registrations, *Public Health and Wellbeing Act 2008* registrations and parking fines. Increases in statutory fees are made in accordance with legislative requirements.

Statutory fees are higher by 4.4% or \$0.403 million compared to 2023/24 forecast.

The 2024/25 town planning fees are expected to be \$0.35 million more than the 2023/24 forecast. The 2023/24 forecast is well below budget impacted by a building sector subdued by high construction costs and interest rate rises. The sector and demand is expected to bounce back and stabilise during 2024/25.

Parking infringements, land information certificates and building permit revenue is expected to be maintained at 2023/24 forecast levels.

A detailed listing of statutory fees is included in Section 6.

#### 4.1.3 User fees

	Forecast Actual 2023/24 \$'000	Budget 2024/25 \$'000	Change \$'000	%
Aged and health services	1,790	2,014	224	12.5%
Leisure centre and recreation	709	657	(52)	(7.3%)
Child care/children's programs	2	-	(2)	(100.0%)
Planning and Infrastructure	1,898	1,729	(169)	(8.9%)
Parking	2,250	2,158	(92)	(4.1%)
Animal Registration Permits	1,369	1,406	37	2.7%
Amenity Protection	1,436	1,458	22	1.5%
Waste management services	80	224	144	180.0%
Other fees and charges	743	766	23	3.1%
<b>Total user fees</b>	<b>10,277</b>	<b>10,412</b>	<b>135</b>	<b>1.3%</b>

User charges relate mainly to the recovery of service delivery costs through the charging of fees to users of Council's services. In setting the budget, the key principle for determining the level of user charges has been to ensure that increases reflect the cost of running the services and/or market levels.

User fees are expected to increase by 1.3% or \$0.135 million compared to 2023/24 forecast.

The increase in the 2024/25 budget for Aged and health services is mainly due to the growth in client numbers in the Home care package business.

The decrease in the 2024/25 budget for Leisure centre and recreation is mainly due reduction in income from Open space user permits.

Planning and Infrastructure fees are expected to decrease due to a one-off increase in the 2023/24 forecast from additional occupancy fee income which is reflective of the construction occurring over the year.

The increase in the 2023/24 forecast for Parking is partly due to installation of digital parking meters.

The increase in the 2024/25 budget for waste management services income is mainly due to income from the new Container Deposit Scheme in recycling.

A detailed listing of statutory fees is included in Section 6.

#### 4.1.4 Grants

The above table lists operating and capital grants by type and source, classified into recurrent and non-recurrent.

#### 4.1.4 Grants (cont'd)

Operating grants include all monies received from State and Federal sources for the purposes of funding the delivery of Council's services to ratepayers. Overall, the level of operating grants is projected to increase by 12.5% or \$2.71 million compared to 2023/24, predominately as a result of the growth in Home care Packages (\$3.9 million).

Assessment and Review funding has decreased in 2024/25 due to the service not being provided beyond 31 December 2024.

The forecast for 2023/24 non-recurrent operating grants includes one-off grants of \$0.24 million for the LRCI Tree Planting Program, \$0.23 million for kinder central enrolment and \$0.2 million for the South Road bicycle improvement project.

Capital grants include all monies received from State, Federal and community sources for the purposes of funding the capital works program. Overall the level of capital grants will decrease by 23.3% or \$1.67 million compared to 2023/24 .

Major capital grants in 2023/24 included: \$2.35 million for the Bayside Netball Centre, \$1.5 million for Black Rock Life Saving Club redevelopment, \$0.9 million for Elsternwick Park 1 lighting and pavilion upgrade, \$0.8 million for Fern St Early Years Children's Centre.

Major capital grants expected in 2024/25 include: \$3.3 million for Elsternwick Park Nature Reserve Wetlands and \$1.6 million for Elsternwick Park Nature Reserve Gateway Building.

Section 4.5 includes a more detailed analysis of the capital grants expected to be received during the 2025 year.

#### 4.1.5 Contributions

	Forecast Actual 2023/24 \$'000	Budget 2024/25 \$'000	Change \$'000	%
Monetary - Operating	102	104	2	2.0%
Monetary - Capital	9,829	4,000	(5,829)	(59.3%)
Non-monetary Contributions - Capital	7,004	-	(7,004)	-
<b>Total contributions</b>	<b>16,935</b>	<b>4,104</b>	<b>(12,831)</b>	<b>(75.8%)</b>

Contributions relate to monies paid by developers in regard to public resort and recreation, drainage and car parking in accordance with planning permits issued for property development, and capital contributions from users of facilities.

Resort & Recreation Levy (Open Space) contributions are projected to decrease by 59.3% or \$5.83 million compared to 2023/24 forecast. Open space contributions are cash contributions from developers which are held in a reserve for improvements to open space.

The Resort and Recreation Levy in 2023/24 included a number of large one off developments. The budget for 2024/25 reflects the expected income for the year based on typical activity. Non-monetary Developer Contributions in 2023/24 includes the transfer of land from the developer of 37 Graham Road, Highett (Former CSIRO Site) as per Agreement under section 173 of the Planning and Environment Act 1987.

#### 4.1.6 Other income

	Forecast Actual 2023/24 \$'000	Budget 2024/25 \$'000	Change \$'000	%
Rental Income	4,094	4,178	84	2.1%
Interest	5,325	4,369	(956)	(18.0%)
Other	1,454	1,421	(33)	(2.3%)
<b>Total other income</b>	<b>10,873</b>	<b>9,968</b>	<b>(905)</b>	<b>(8.3%)</b>

Rental income is projected to increase by 2.1% or \$0.084 million in 2024/25 reflecting an increase in lease from council owned facilities partially offset by a reduction in the Waste Transfer Station lease income due to new lease conditions.

Interest income is expected to decrease by 18% or \$0.96 million over 2024/25, reflecting an expected decrease in the cash rate and reduced cash levels.

Other income relates to a range of items such as cost recovery and other miscellaneous income items including the sale of discontinuances in the same financial year. Other income is expected to decrease by 2.3% or \$0.03 million.

#### 4.1.7 Employee costs

	Forecast	Budget	Change	
	Actual	2024/25		
	2023/24		\$'000	%
	\$'000	\$'000	\$'000	%
<b>Total employee costs</b>	<b>56,985</b>	<b>62,390</b>	<b>5,405</b>	<b>9.48%</b>

Employee costs include all labour related expenditure such as wages and salaries and on-costs such as allowances, leave entitlements, and employer superannuation.

Employee Costs are expected to increase by 9.48% or \$5.4 million compared to the forecast primarily due to the growth in the fully funded Home Care Packages service \$3.1 million, an increase in compulsory employer superannuation contributions from 11% to 11.5% \$0.27 million, and four new positions funded from savings identified in materials and services budgets across the organisation \$0.25 million.

Excluding growth in the fully funded Home Care Package service, new positions, and compulsory superannuation contributions the underlying increase in salaries is 3.2%.

- Council's Enterprise Bargaining Agreement to increase by 2.75% in-line with the Minister's rate cap plus band increments for qualifying staff
- Increase in Council's Workcover Premium compared to 2023/2024

#### 4.1.8 Materials and services (cont'd)

Materials and services include the purchases of consumables, payments to contractors for the provision of services and utility costs. Materials and services are forecast to increase by 3.7% or \$2.35 million compared to 2023/24 and relates to:

- Recycling and waste services costs are expected to increase by 4.5% or \$0.56 million due to the increase in Green Waste Disposal (higher disposal rate for organics) and Kerbside Recycling costs.
- Open space and street tree management costs are expected to increase 3.8% mainly due to variations in the Open Space General Maintenance contract and increases of CPI.
- Contract payments - other are expected to increase 9.4% due to additional services for Street Sweeping and Drainage Maintenance and costs associated with Christmas Carols.
- Building Maintenance costs are estimated to increase 4.0% due to an increase in Reactive Maintenance costs.
- General Maintenance costs are expected to decrease 8.8% due to additional one-off Footpath Concrete Maintenance and Emergency Services works being delivered in 2023/24.
- Services and Purchases are expected to increase as a result of one-off initiatives in 2024/25 including:
  - Delivering the Biodiversity Action Plan
  - Review of the Bayside Open Space Strategy
  - Delivery of the Domestic Animal Management Plan
  - Billilla Activation
  - Developing a new Coastal and Marine Management Plan
  - Undertaking the 2024 Victorian Council Elections
- Insurance Premiums are estimated to increase 18.7 % as a result of current market conditions.
- Utilities are expected to increase 9.5% as the current water and sewage budget not fully utilised during 2023/24 due to increased rainfall will be retained due to the uncertainty of rainfall forecasts next year.

#### 4.1.9 Depreciation

	Forecast Actual 2023/24 \$'000	Budget 2024/25 \$'000	Change \$'000	%
Property	8,850	9,027	177	2.0%
Plant & equipment	1,191	1,214	23	1.9%

<b>Total depreciation</b>	<b>24,797</b>	<b>25,293</b>	<b>496</b>	<b>2.0%</b>

Depreciation is an accounting measure which attempts to allocate the value of an asset over its useful life for Council's property, plant and equipment including infrastructure assets such as roads and drains. The increase of \$0.496 million for 2024/25 reflects the depreciation from the 2024/25 capital works program, the full year effect of depreciation on the 2023/24 capital works program, as well as the increased depreciation due to indexed replacement costs from Infrastructure revaluations. Refer to Section 4.5 for details of Council's capital works program for the 2024/25 year.

#### 4.1.10 Amortisation - Intangible Assets

<b>Total other expenses</b>	<b>1,439</b>	<b>1,443</b>	<b>4</b>	<b>0.3%</b>

Bad and doubtful debts are expected to remain at similar levels to 2023/24.

Finance costs relate to interest on the Net Present Value of Council's fleet and IT equipment lease payments.

Other expenses is predominately WIP written off during the year.

## 4.2 Balance Sheet

### 4.2.1 Assets

Cash and cash equivalents include cash and investments such as cash held in the bank and in petty cash and the value of investments in deposits or other highly liquid investments with short term maturities of three months or less.

These balances are projected to decrease by \$0.064 million during the year, as part of Council's treasury management activity.

Trade and other receivables are monies owed to Council by ratepayers and others. Short term debtors are not expected to change significantly in the budget.

Financial assets are bank term deposit investments with maturities greater than three months which are expected to decrease by \$4.0 million in 2024/25, aligned to the timing of reserves required to fund major capital projects. The balance is expected to decrease by a further \$36 million over the following three years as restricted and unrestricted cash reserves are utilised to fund the four year capital program.

Other assets includes items such as prepayments for expenses that Council has paid in advance of service delivery, inventories or stocks held for sale or consumption in Council's services and other revenues due to be received in the next 12 months.

Property, infrastructure, plant and equipment is the largest component of Council's worth and represents the value of all the land, buildings, roads, equipment, etc which has been built up by Council over many years.

The \$30.77 million increase in this balance is mainly, attributable to the net result of the capital works program (\$55.75 million of new assets) offset by depreciation of assets (\$27.63 million).

### 4.2.2 Liabilities

Trade and other payables are those to whom Council owes money as at 30 June. These liabilities are budgeted to remain consistent with 2023/24 levels.

Provisions include accrued long service leave and annual leave. These employee entitlements are only expected to increase marginally due to more active management of entitlements despite factoring in an increase for Collective Agreement outcomes.

### 4.2.3 Borrowings

The table below shows information on borrowings specifically required by the Regulations.

	2023/24 \$'000	2024/25 \$'000	Variance \$'000
Amount borrowed as at 30 June of the prior year	-	-	-
Amount proposed to be borrowed	-	-	-
Amount projected to be redeemed	-	-	-
Amount of borrowings as at 30 June	-	-	-

#### 4.2.4 Leases by category

As a result of the introduction of AASB 16 Leases, right of use assets and lease liabilities have been recognised as outlined in the table below.

	2023/24 \$'000	2024/25 \$'000	Variance \$'000

<b>Total restricted, committed and allocated funds</b>	<b>(72,250)</b>	<b>(56,766)</b>	<b>15,484</b>
--	-----------------	-----------------	---------------

#### 4.3.1 Reserves (cont'd)

**Statutory Reserves** - These funds must be applied for specified statutory purposes in accordance with various legislative requirements. While these funds earn interest revenues for Council, the funds are not available for other purposes.

**Funds subject to intended allocations** - These funds are shown as discretionary reserves as, although not restricted by a statutory purpose, Council has made decisions regarding the future use of these funds and unless there is a Council resolution these funds will be used for those earmarked purposes. The decisions about future use of these funds has been reflected in Council's Strategic Resource Plan and any changes in future use of the funds will be made in the context of the future funding requirements set out in the plan.

Cash held to fund carry forward capital works - An amount of \$22.255 million is forecast to be held at 30 June 2024 to fund capital works budgeted but not completed in the financial year. Section 4.5 contains further details on capital works funding.

The **Infrastructure Reserve** holds identified savings from the net operating and capital favourable budget surplus for the year as a contingency to finance projects deemed as unavoidable, infrastructure projects, or the early repayment of borrowings.

The **Community Facilities Enhancement Reserve** holds the proceeds from the prior year sale of the Independent Living Units, and planned future property sales, which will be used to fund new or improvements to community facilities that provide direct benefit to the Bayside Community.

The **Defined Superannuation Shortfall Reserve** is to quarantine \$0.50 million annually to ensure Council sets aside sufficient cash to cover for future defined benefit superannuation shortfall calls, which are one-off and material in nature.

**Unallocated and Unrestricted cash** - These funds are free of all specific Council commitments and represent funds available to meet daily cash flow requirements, unexpected short term needs and any budget commitments which will be expended in the following year such as grants and contributions.

Cash and cash equivalents held by Council are restricted in part, and not fully available for Council's operations. The budgeted balance sheet in Section 3 indicates that Council is estimating at 30 June 2025 it will have cash and investments of \$118.135 million, which has restricted, committed, and allocated amounts of \$56.766 million - as shown in the table above.

### 4.3.2 Equity

Total equity always equals net assets and is made up of the following components:

- Asset revaluation reserve which represents the difference between the previously recorded value of assets and their current valuations.
- Other reserves that are funds that Council wishes to separately identify as being set aside to meet a specific purpose in the future and to which there is no existing liability. These amounts are transferred from the Accumulated Surplus of the Council to be separately disclosed.
- Accumulated surplus is the value of all net assets less Reserves that have accumulated over time.

This is expected to increase by \$38.648 million and is made up of the budgeted surplus for the year of \$23.04 million as well as net \$15.608 million transferred from reserves to fund an increase in the capital program.

## 4.4 Statement of Cash Flows

### 4.4.1 Net cash flows provided by/used in operating activities

The net cash flows from operating activities does not equal the surplus (deficit) for the year as the expected revenues and expenses of the Council include non-cash items which have been excluded from the Cash Flow Statement. The budgeted operating result is reconciled to budgeted cash flows available from operating activities as set out in the table below.

	Forecast Actual 2023/24 \$'000	Budget 2024/25 \$'000	Variance \$'000
<b>Surplus (deficit) for the year</b>	<b>39,565</b>	<b>23,040</b>	(16,525)
Depreciation and Amortisation	26,964	27,630	666
Finance costs - Leases	61	50	(11)
Net movement in current assets and liabilities	10,494	1,709	(8,785)
<b>Cash flows available from operating activities</b>	<b>70,080</b>	<b>52,429</b>	(17,651)

### 4.4.2 Net cash flows provided by/used in investing activities

The payments for investing activities represents the investment in capital works expenditure disclosed in Section 4.5 of this budget report as well as the proceeds of investments prior to the draw down of capital reserves in future years to fund Council's ambitious capital program.

### 4.4.3 Net cash flows provided by/used in financing activities

The cash outflows from financing activities relates to the recognition of Council's previous operating leases in the Balance Sheet, with the annual lease repayments now recognised as Financing Activities under *AASB 16 Leases*.

## 4.5. Capital works program

This section presents a listing of the capital works projects that will be undertaken for the 2024/25 year, classified by expenditure type and funding source. Works are also disclosed as current budget or carried forward from prior year.

### 4.5.1 Summary

	Forecast Actual 2023/24 \$'000	Budget 2024/25 \$'000	Change \$'000	%

<b>Grand Total</b>	<b>804</b>

## 5. Performance indicators

### 5a. Targeted performance indicators

The following tables highlight Council's current and projected performance across a selection of targeted service and financial performance indicators. These indicators provide a useful analysis of Council's intentions and performance and should be interpreted in the context of the organisation's objectives.

The targeted performance indicators below are the prescribed performance indicators contained in Schedule 4 of the Local Government (Planning and Reporting) Regulations 2020. Results against these indicators and targets will be reported in Council's Performance Statement included in the Annual Report.

## 5b. Financial performance indicators

The following table highlights Council's current and projected performance across a range of key financial performance indicators. These indicators provide a useful analysis of Council's financial position and performance and should be interpreted in the context of the organisation's objectives.

The financial performance indicators below are the prescribed financial performance indicators contained in Part 3 of Schedule 3 of the Local Government (Planning and Reporting) Regulations 2020. Results against these indicators will be reported in Council's Performance Statement included in the Annual Report.

**Key to forecast trend:**

- + Forecasts improvement in Council's financial performance/financial position indicator
- o Forecasts that Council's financial performance/financial position indicator will be steady
- Forecasts deterioration in Council's financial performance/financial position indicator

**Notes to indicators****1. Satisfaction with community consultation and engagement**

Community satisfaction rating out of 100 with the consultation and engagement efforts of Council. The satisfaction rating is sourced from the Annual Satisfaction Survey conducted by an independent research company. Bayside's result is predicted to remain constant over the next few years.

**2. Sealed local roads below the intervention level**

Number of kms of sealed local roads below the renewal intervention level set by Council / Kms of sealed local roads. The result is predicted to remain consistent given Council's Pavement Management System and greater reliance on timely capture of actual conditions of roads.

**3. Planning applications decided within the relevant required time**

Bayside has sustained a high percentage of applications processed within the specified timeframes, remaining well above the average for similar Councils.

**4. Kerbside collection waste diverted from landfill**

The trend in increased diversion rates that commenced with the introduction of food and green waste separation in 2019, has jumped by 10% following the introduction of changed bin collection.

**5. Working Capital**

The proportion of current liabilities represented by current assets. Working capital is forecast to decrease from 2023/24 due to cash reserves being utilised to fund the capital program. The trend in later years is to remain steady at an acceptable level.

**6. Asset renewal**

This percentage indicates the extent of Council's renewals against its depreciation charge (an indication of the decline in value of its existing capital assets). A percentage greater than 100 indicates Council is maintaining its existing assets, while a percentage less than 100 means its assets are deteriorating faster than they are being renewed and future capital expenditure will be required to renew assets. Renewal is always a focus of Council's capital program. The result declines over the next couple of years but remains at an acceptable level.

**7. Rates concentration**

Reflects extent of reliance on rate revenues to fund all of Council's on-going services. Trend indicates Council's reliance on rate revenue remains constant.

**8. Expenditure level**

Expenses per property assessment. Trend indicates a slight increase each year as Council expenditure increases and property assessments remain relatively constant.

**9. Adjusted underlying result**

An indicator of the sustainable operating result required to enable Council to continue to provide core services and meet its objectives. There is a slight deterioration in the underlying result after the 2023/24 year driven mainly by an increase in depreciation reflecting Council's increasing investment in major Capital projects and Infrastructure. The result is expected to stabilise and remain favourable in the long term.

**10. Unrestricted Cash**

All cash and cash equivalents other than restricted cash, including cash that will be used to fund capital expenditure from the previous financial year. Council still maintains a healthy level of unrestricted cash.

**11. Debt compared to rates**

Council is currently debt free and there are no current plans for borrowings.

**12. Rates effort**

Rates compared to property values. The rate increase is in accordance with the rate capping framework.

**13. Revenue level**

Average rate per property assessment. General rates increase in accordance with the predicted rate cap.
